Ex.: 20 mins. - walk 2, run 2x5 = 20 mins. total exercise, walking 2 mins, then running 2 mins and alternating 5 times.

The goal of this program is to go from beginner to completing a 5K without having to walk.

It may be modified to various fitness levels and weekly schedules.

Daily runs should be performed at 75-80% effort (not too hard, not too easy – able to carry on a conversation)

XT = Cross-training - swimming, biking, weight training, yoga, etc. (i.e. – slightly elevated heart rate, non-impact)
